

# DEVICES

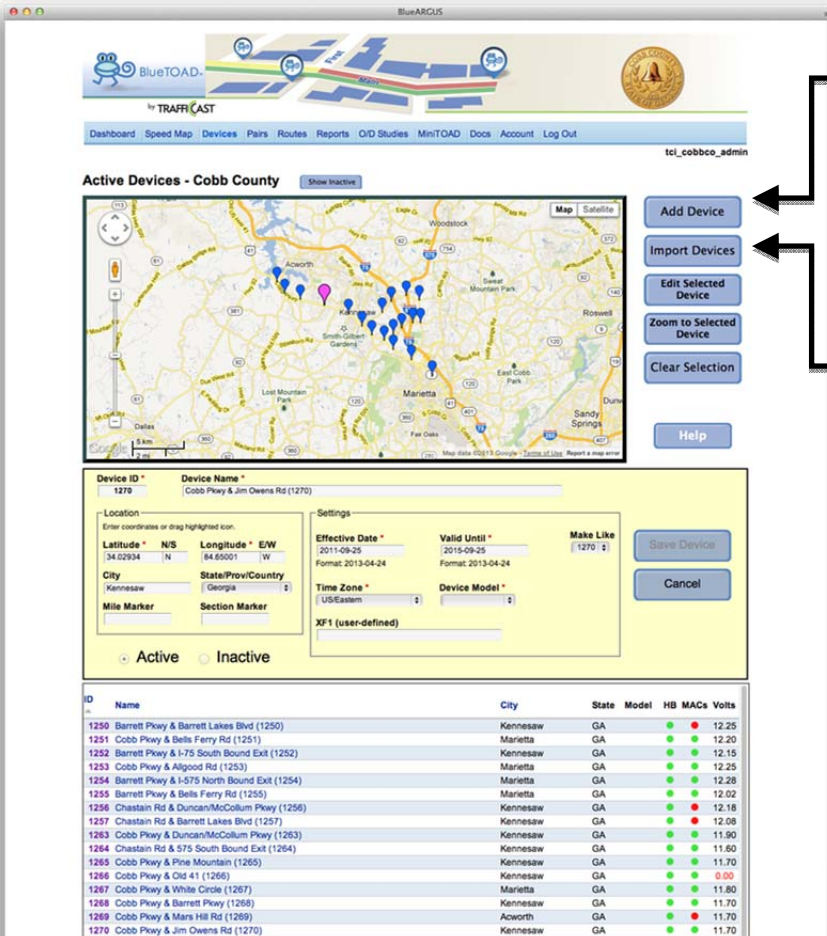

## Devices : Adding New Devices

### ADD A SINGLE DEVICE

To add a single Device, click the Add Device button. A blank Device form will open. Fill in the information and click Save Device.

### ADD A LIST OF DEVICES

To add multiple Devices at once, use the Import feature. You will first create an Excel spreadsheet containing the details of each new device (using a template that can be downloaded from the Import form) and then import the spreadsheet file. You will be able to preview the new Devices before saving the data. To get started, click the Import Devices button. A Device Import form will open. Follow the steps on the form.

The screenshot shows the BlueTOAD web interface. At the top, there's a navigation menu with options like Dashboard, Speed Map, Devices, Pairs, Routes, Reports, O/D Studies, MiniTOAD, Docs, Account, and Log Out. The user is logged in as 'tci\_cobbco\_admin'. The main area is titled 'Active Devices - Cobb County' and features a map of Cobb County, Georgia, with several blue location pins. To the right of the map is a vertical toolbar with buttons: 'Add Device', 'Import Devices', 'Edit Selected Device', 'Zoom to Selected Device', 'Clear Selection', and 'Help'. Below the map is a form for adding a new device. The form includes fields for 'Device ID' (1270), 'Device Name' (Cobb Pkwy & Jim Owens Rd (1270)), 'Location' (Latitude, Longitude, City, State, Mile Marker, Section Marker), and 'Settings' (Effective Date, Valid Until, Time Zone, Device Model, Make Like, and XF1). There are 'Save Device' and 'Cancel' buttons. At the bottom, there is a table listing existing devices.

ID	Name	City	State	Model	HB	MACs	Volts
