Technical Bulletin

BlueARGUS Account Permissions

This document outlines and describes the different account types and their role/permission levels. Each account type is unique and serves a very distinct purpose. Each user can have multiple roles. Here are all the options:
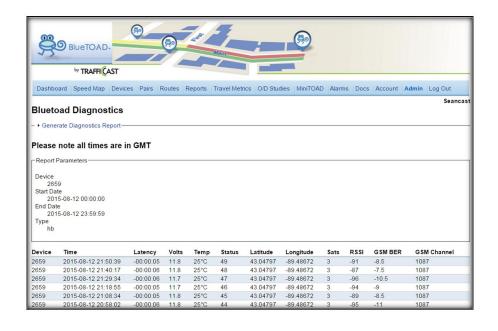

- ☑ authenticated user
- ☐ BlueTOAD Group Admin
- ☐ BlueTOAD SAS Admin
- ☐ BlueTOAD User
- ☐ Diagnostics Viewer
- ☐ Origin/Destination Admin
- ☐ tci_xxx_admin
- ☐ TrafficCast Admin
- ☐ User and Group Admin
- ☐ XML Feed User

Each role is defined as the following:

BlueTOAD Group/SAS Admin – Group admin have the capability of adding and editing Devices, Pairs, and Routes.

BlueTOAD User - Users can view Devices/Pairs/Routes but cannot add or edit. As well, Users have the ability to create and view Reports. Users can also view OD reports that have been create by an OD Admin but canøt create new ones.

Diagnostics Viewer – Gives an account access to the õadminö page which is where a user can pull up the diagnostics (heart beat) of a device. *Sample included below:*

Technical Bulletin

Origin/Destination Admin – Gives a user permission to create and edit Origin Destination studies.

TrafficCast Admin & tci_xxx_admin – TrafficCast only accounts used to provide support

User and Group Admin - Gives a user the ability to add new users to their existing BlueTOAD group.

XML Feed User – Gives a user access to the XML feeds
